## Projects

### Student Feedback Portal

A Feedback Portal for the Department of Information Technology, VGEC for getting the feedbacks of the students based on the guidelines of AICTE.

Added Functionalities to Add COs (Course Outcomes), Get Report of Response of COs to the Admin, Flush Data based on the Semester.

Worked on Nodejs, Expressjs, EJS and Data Connectivity using MongoDB.

Link : <https://app-feedback.herokuapp.com>

### VGEC Library Portal

Portal for getting all the informations related to VGEC Library like Book Purchase History, Book Issued Details, Overdue Book Details etc.

Worked on HTML, CSS, Bootstrap, JavaScript, AJAX and Data Connectivity using PHP and MsSQL.

### Training and Placement Cell Portal

The Training and Placement Cell website as well as portal for maintaining the information related to the placement of the students.

Added Functionality to add Resume of the students, download resumes of selected students as a zip file.

Worked on HTML, CSS, JavaScript, AJAX, and Data Connectivity using PHP and MySQL.

Link : <https://www.vgecg.ac.in/tnp2>

### Payment Gateway Integration

HDFC Payment Gateway integration in the College Website for collecting the Term Fees, Hostel Fees and General Purpose Fees from the students.

Worked on HTML, CSS, JavaScript, AJAX, and Data Connectivity using PHP and MySQL.

### VGEC Website

The Official College Website of my college.

Added Functionalities for student registration using email OTP, exporting the data in CSV File and Exporting Images as a Zip and modified the old code for ensuring proper coding standards and checking all the security aspects in the code.

Worked on HTML, CSS, JavaScript, AJAX, and Data Connectivity using PHP and MySQL.

Link : <https://www.vgecg.ac.in>

### GetPlaced - A Placement Portal

A Placement Portal for students, colleges and companies.

Worked on HTML, CSS, JavaScript, AJAX, and Data Connectivity using PHP and MySQL.

Link : <https://github.com/absh31/GetPlaced>

### Appointment Management System

Portal to manage and handle the daily appointments of the business.

Worked on HTML, CSS, JavaScript, AJAX, and Data Connectivity using PHP and MySQL.
